

**Job Title: Junior Project Manager****Location:** Barcelona (Hybrid)**Company:** Sycal Medical**About Us**

Sycal Medical is an innovative startup in the medical device space, focused on advanced medical imaging solutions for the early detection of cancer. Our mission is to improve patient outcomes by enabling faster, more accurate diagnoses through cutting-edge technology. As a growing team, we are passionate about combining clinical insight, data, and engineering to make a real impact in healthcare.

**Role Overview**

We are looking for a motivated and detail-oriented Junior Project Manager to join our team. This role is ideal for someone eager to develop their career in project management and innovation within a fast-paced, purpose-driven startup environment. You will support the planning and execution of key projects across product development, regulatory, commercial, and innovation initiatives.

**Key Responsibilities**

- Support the planning, coordination, and execution of cross-functional projects
- Track project timelines, deliverables, and milestones, ensuring deadlines are met
- Coordinate communication between internal teams (engineering, clinical, regulatory, and business)
- Assist in preparing project documentation, reports, and presentations
- Identify potential risks or bottlenecks and escalate them proactively
- Support innovation projects, including public funding applications and international initiatives
- Help coordinate consortia partners and contribute to the execution of funded international projects

**Requirements**

- Bachelor's degree in Engineering, Life Sciences, Business, or a related field
- 0–2 years of experience in project coordination or management (internships included)
- Strong organizational and communication skills
- Ability to manage multiple tasks in a dynamic environment
- Proactive mindset and willingness to learn
- Fluency in English (additional languages are a plus)

**Nice to Have**

- Interest or experience in healthcare, medical devices, or AI in medical imaging
- Familiarity with project management tools (e.g., Jira)

- Exposure to public funding programs (e.g., Horizon Europe, Eurostars)

**What We Offer**

- The opportunity to work on meaningful technology with real clinical impact
- A collaborative and international team environment
- Exposure to all areas of a growing startup
- Professional development and learning opportunities
- Flexible working arrangements

**How to Apply**

If you are excited about improving cancer diagnosis and want to grow in a high-impact startup, we would love to hear from you. Please send your CV and a short motivation letter to [info@sycaltechnologies.com](mailto:info@sycaltechnologies.com).

Join us in shaping the future of early cancer detection.
