

Medical Leader – Abdominal Radiology (Part-time, 3 hours/week)

Location: Flexible / Hospital-based practice

Commitment: ~3 hours/week

About Us:

Sycal Medical is an innovative medtech startup leveraging AI to improve abdominal imaging and clinical decision-making. We are looking for a motivated **Abdominal Radiologist** to join our team as a **Medical Leader**, helping shape the future of radiology technology.

Role Overview:

The Medical Leader will provide **clinical guidance, strategic input, and user insights** for the development of our AI-based imaging tools. This is a **part-time advisory role (3 hours/week)** designed for a practicing radiologist who wants to contribute to innovation while continuing clinical work.

Key Responsibilities:

- Collaborate with the product and engineering teams to **develop, test, and refine AI tools** for abdominal imaging.
- Provide **clinical validation, usability feedback, and real-world perspective** on product development.
- Represent Sycal Medical as **Medical Leader** to stakeholders, partners, and at professional congresses.
- Assist in **designing study objectives, clinical trials, and research initiatives**.
- Contribute to **publications, presentations, and promotional activities** to showcase innovations.
- Advocate for innovation in radiology and help ensure solutions meet **real clinical needs**.

Requirements:

- Board-certified or equivalent in **Abdominal Radiology**.
- Active **hospital practice**.
- Interest in **AI, medical innovation, and startup environment**.
- Willingness to dedicate **~3 hours/week** to Sycal Medical activities.
- Excellent communication skills for **interactions with teams, stakeholders, and at congresses**.
- Enthusiasm for attending **congresses, workshops, and innovation events**.

Desirable:

- Prior experience with **AI in radiology**.

- Research experience or interest in **clinical studies and publications**.
- Innovative mindset and ability to **bridge clinical and technological perspectives**.

What We Offer:

- Opportunity to shape the **next-generation AI tools in abdominal imaging**.
- Part-time commitment compatible with full-time hospital practice.
- Participation in an **exciting startup environment** with potential to impact patient care worldwide.
- Visibility as **Medical Leader at conferences and professional events**.
